CHALLENGES AND OPPORTUNITIES

STATE MANDATES:

La Vista faces many of the same challenges confronting local governments across the country. The State of Nebraska has fallen in line with many other states and has become much more active in regulating the affairs of its municipalities. Many of those state-mandated regulations impact the financial flexibility of cities and counties. Although La Vista continues to be in an enviable financial position, it is threatened by various state regulatory actions to restrict municipal flexibility and autonomy. The City Administrator will work with the Mayor and a countywide lobbying group to inform and educate state lawmakers on the impacts of their decisions on basic and important public services delivered at the local level.

SUCCESSION PLANNING:

La Vista has several long-tenured employees in essential leadership positions who are nearing retirement. Developing plans to transition these vital leadership roles in the organization will be both a challenge and an opportunity.

CORRIDOR 84 PROJECT:

The City Administrator will be expected to spend time on economic development activities designed to expand the local tax base, provide new employment opportunities, and to enhance the overall quality of life in La Vista. There are also some ongoing redevelopment projects that continue to require oversight and guidance by the City of La Vista.

Most notable is the Corridor 84 project. La Vista's stretch of 84th Street from Giles Road to Harrison Street has been the City's main economic center since La Vista was established in 1960. It came to be known as The Golden Mile with businesses such as Wal-Mart, Baker's Supermarket, Gordman's, Hobby Lobby, and Summer Kitchen as main draws along the corridor.

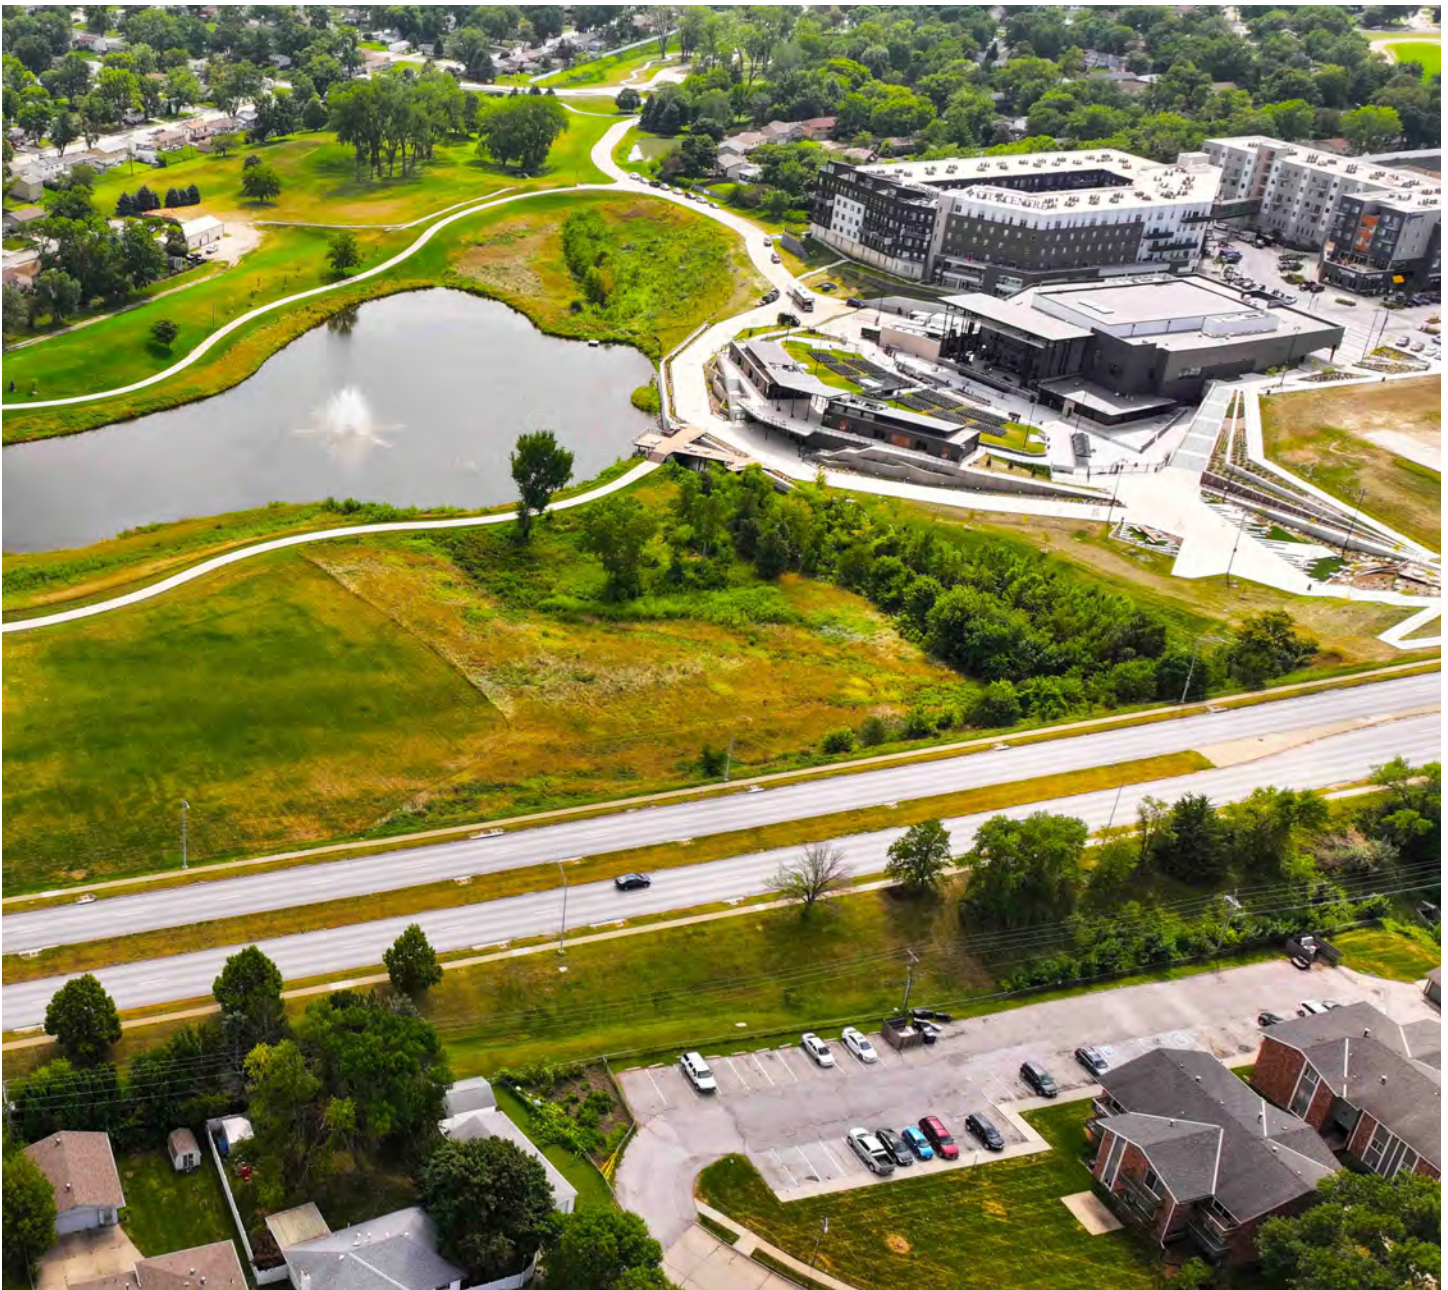

The decline of 84th Street began when Wal-Mart closed in 2006, however, the closing of Baker's in 2008 was what led to the corridor's demise. The City has led significant public planning efforts over several years to chart a new course for the future. The plan, known as "Vision 84," set out to create a memorable and distinct identity and incorporate a vibrant mix of land uses while providing a sense of community and a high quality of life for residents. The old golf course was transformed into Central Park, which provides a venue for a variety of activities and connects City Centre with the existing civic campus to create a new downtown for La Vista.

COMPENSATION AND HOW TO APPLY

The annual starting salary range for the position is \$171,000 to \$200,000 DOQ/E. The City of La Vista provides the City Administrator with a highly competitive and comprehensive array of fringe benefits.
